Wholesale Price List

Palms, Ferns and Plants

With the addition of our plant at Edgebrook, where we have over 70,000 square feet of glass, we now have about 150,000 square feet of glass, and thirty-two acres devoted exclusively to growing all kinds of nursery stock. You know that in plants there can be a great variation in quality and yet strictly be up to specifications. Knowing this, we want you to feel that you will get good value from us, as well as having every shipment strictly up to specifications. We believe that such a policy will appeal to every prospective purchaser. We have been raising and selling plants to the florists for fifty-two years. And in all this time we have had but one policy, and that is: "Good value given on every purchase." Here is a fact that you should not lose sight of: Chicago, being centrally located, has the best railroad facilities in the United States. You will find that you will make a saving in express and freight rates and have the advantage of quick service if you place your order with us.

Areca Lutescens—The above cut shows one of our largest sizes, in 10-in. pot, at \$5.00 each.

Palms

A
Chain
of years
with 52 links

A Chain of Years Suggested Above Conveys This Idea:

That customers once gained are not lost, that new customers are added year after year until the grand total makes a business of many years' standing with a host of satisfied patrons.

Most of our customers started with small orders--just a tryout--to see whether Wittbold gave better value. Some of them ordered stock without specifying the price, and when the bill came in they found that the price was right. Others found that if anything was wrong, all they had to do was to write Wittbold and he made it right.

Now, it was on just such a policy as this that we forged this chain of successful years. They were successful years simply because our patrons were perfectly satisfied.

We want you to start with a small order--just a tryout to see what we can do.

You'll find in time that you don't even have to specify the price.

You'll also find that we will do what is right if anything goes wrong.

This is our policy of dealing with our customers and no doubt, this is the way you would like to be dealt by.

Start with the small order today.
